

***Tackling The Tough Topics:***  
**Suicide Awareness/Substance Abuse/  
Effectively Processing Emotions in a Positive Fashion.**  
**Presented by: Steve Mason**

Teachers/ Faculty/ Adults are encouraged to bring this back to their classrooms and to further encourage the open lines of communication with students. My true goal in developing this presentation was to create a platform for open, meaningful, long-lasting dialogue on these tough topics long after I leave the building. We all have busy schedules, but the feedback that you and your students can provide will undoubtedly help in shaping future presentation, resulting in helping many more people. Feel free to send the feedback through email at:

[Info@ToughTopics.org](mailto:Info@ToughTopics.org)
